BLIND REVIEW · GOVERNED DISCLOSURE

Judge the *work.* Not the person.

Graduate Analyst Challenge 2026

- Identity stays sealed | Scores come first

VEIL / A GOVERNED REVIEW FLOW 01 — 10

Work in view

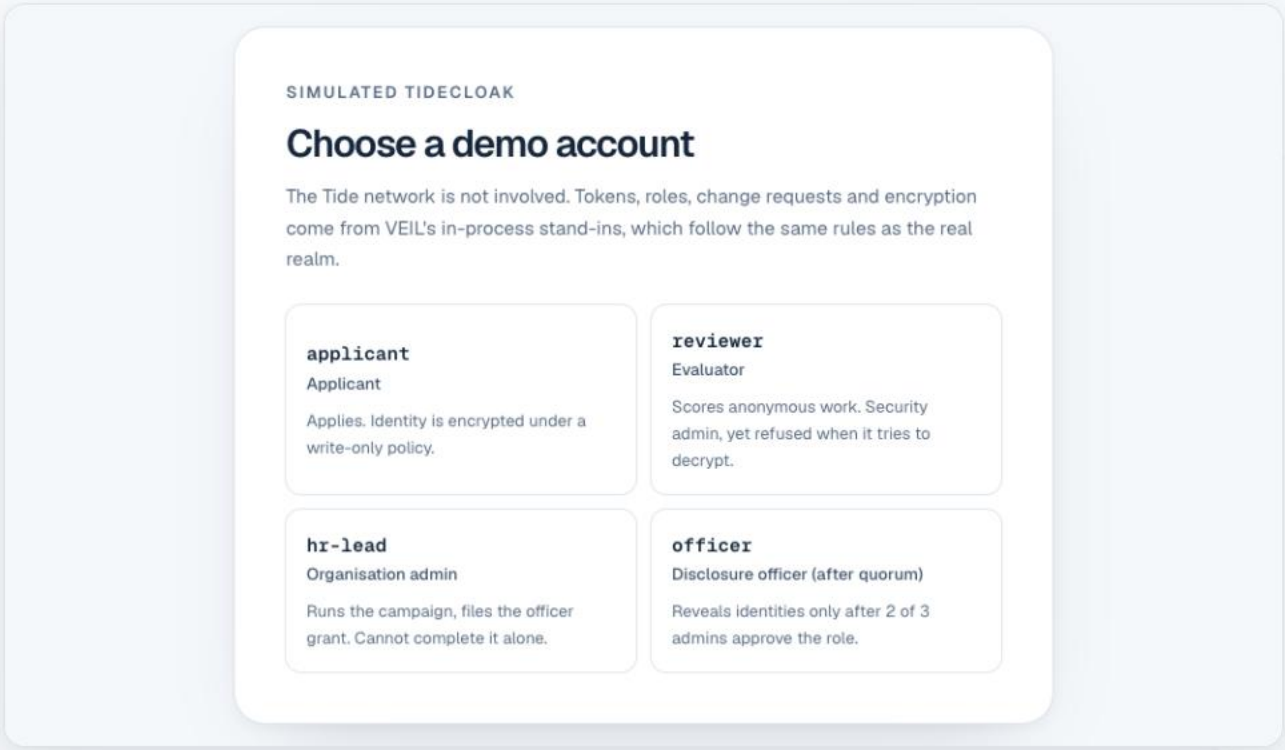

Identity under policy

01 / BOUNDED ROLES

One campaign. *Four boundaries.*

Each person gets the access needed for their task—nothing more.

01	Applicant	SUBMIT
02	Reviewer	SCORE BLIND
03	HR lead	RUN CAMPAIGN
04	Disclosure officer	REVEAL BY POLICY

OPEN → REVIEW → FINALIZED → DISCLOSURE

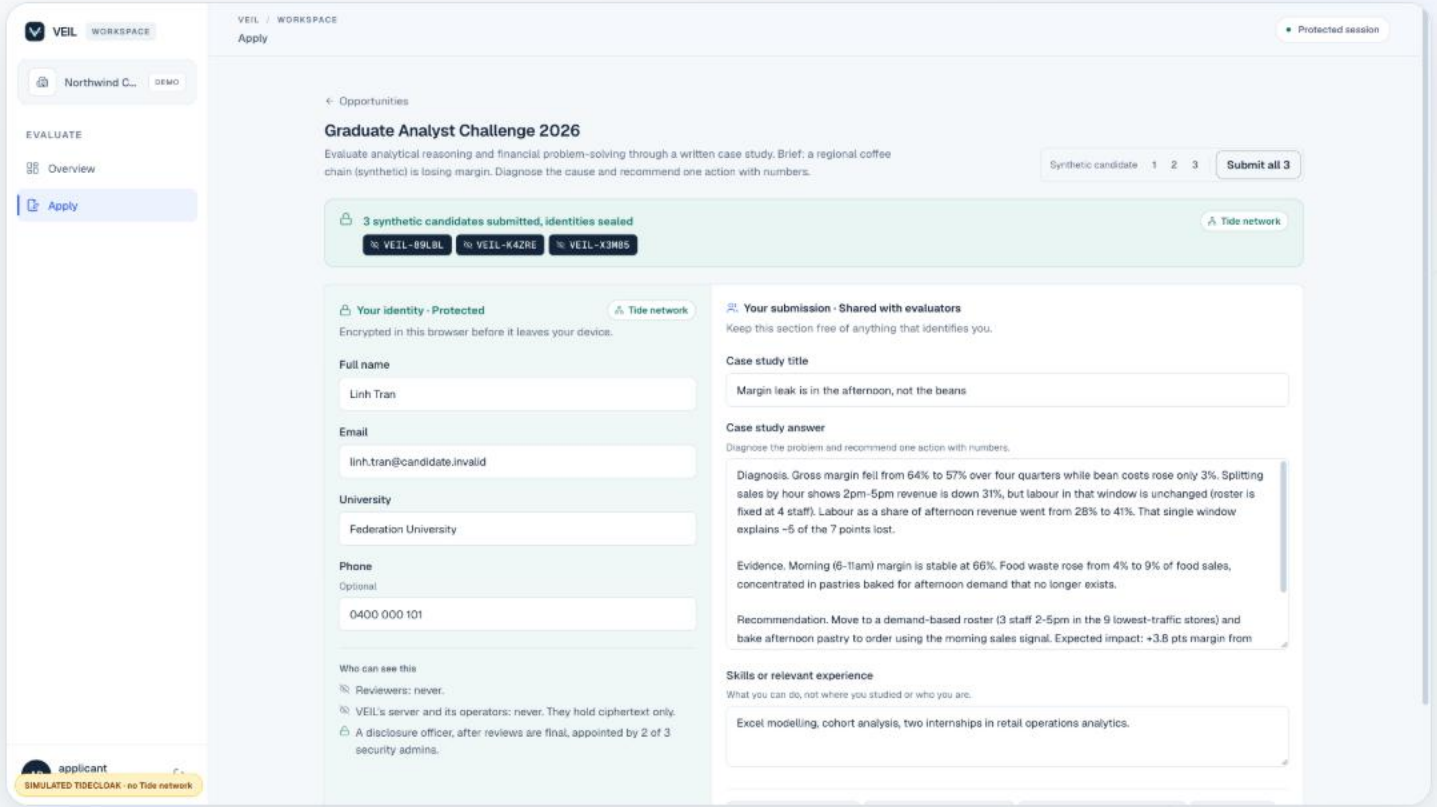

02 / SEALED SUBMISSION

One record. *Two paths.*

The applicant submits work and identity together. VEIL keeps them apart from that point forward.

WORK	Reviewer sees an **anonymous candidate ID** and response.
IDENTITY	Stored as **sealed ciphertext**, unavailable in reviewer view.

03 synthetic candidate IDs generated

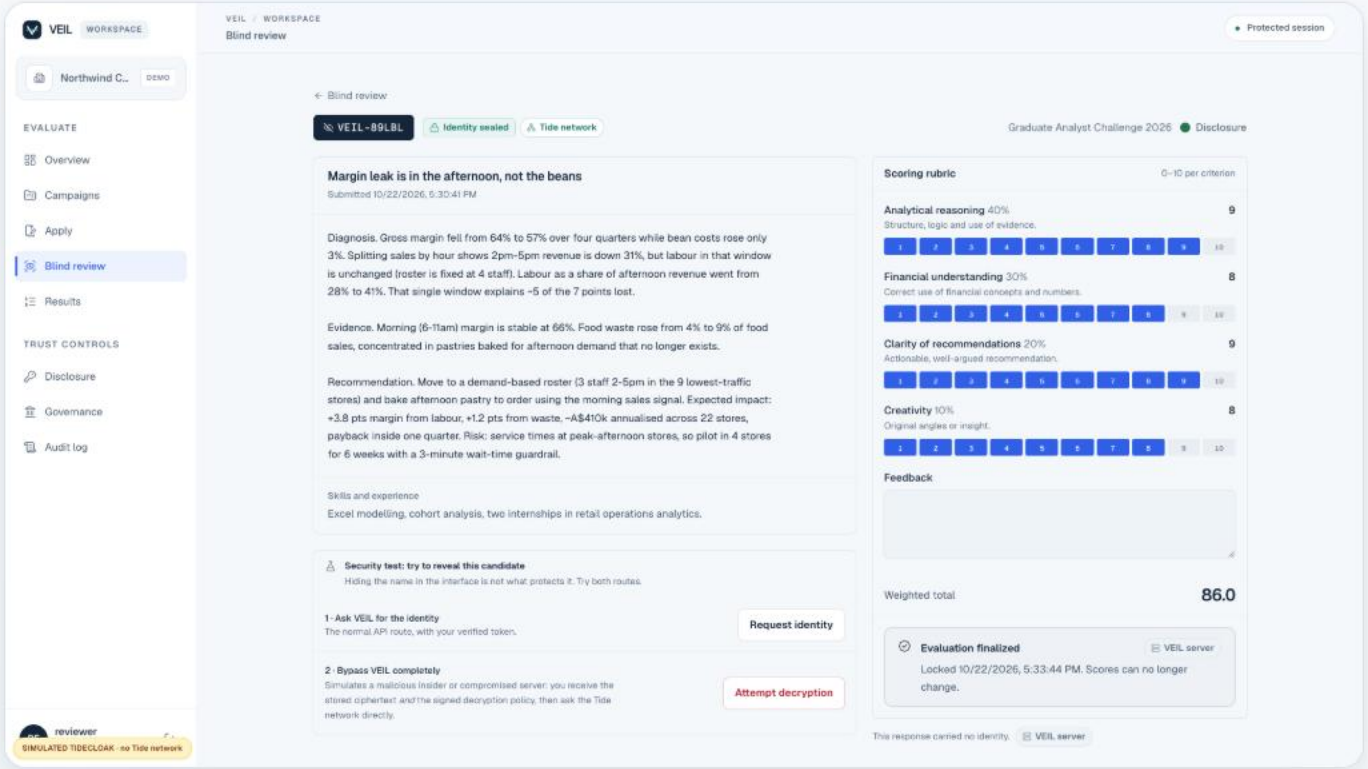

Applicant submission

Identity sealed · work visible

03 / ASSESS THE WORK

Reviewers see the case, *not the candidate.*

A shared rubric turns judgement into a score that can be explained and locked.

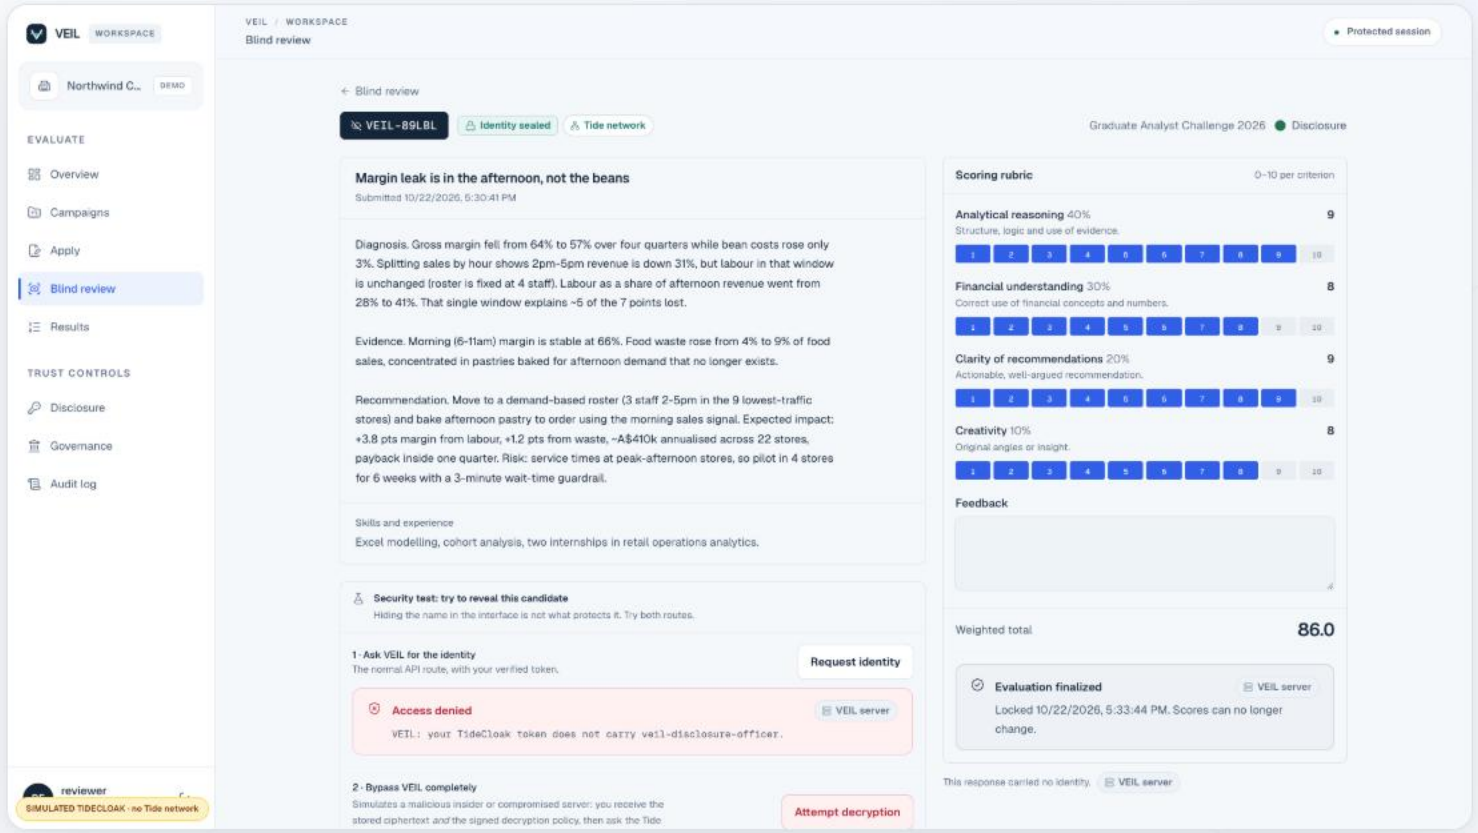

04 / ATTEMPTED BYPASS

Two routes. *Two refusals.*

VEIL blocks an unauthorized request. The signed read policy also refuses the direct network attempt.

APPLICATION GATE
VEIL · DENIED

POLICY GATE
ORK · REFUSED

Security challenge

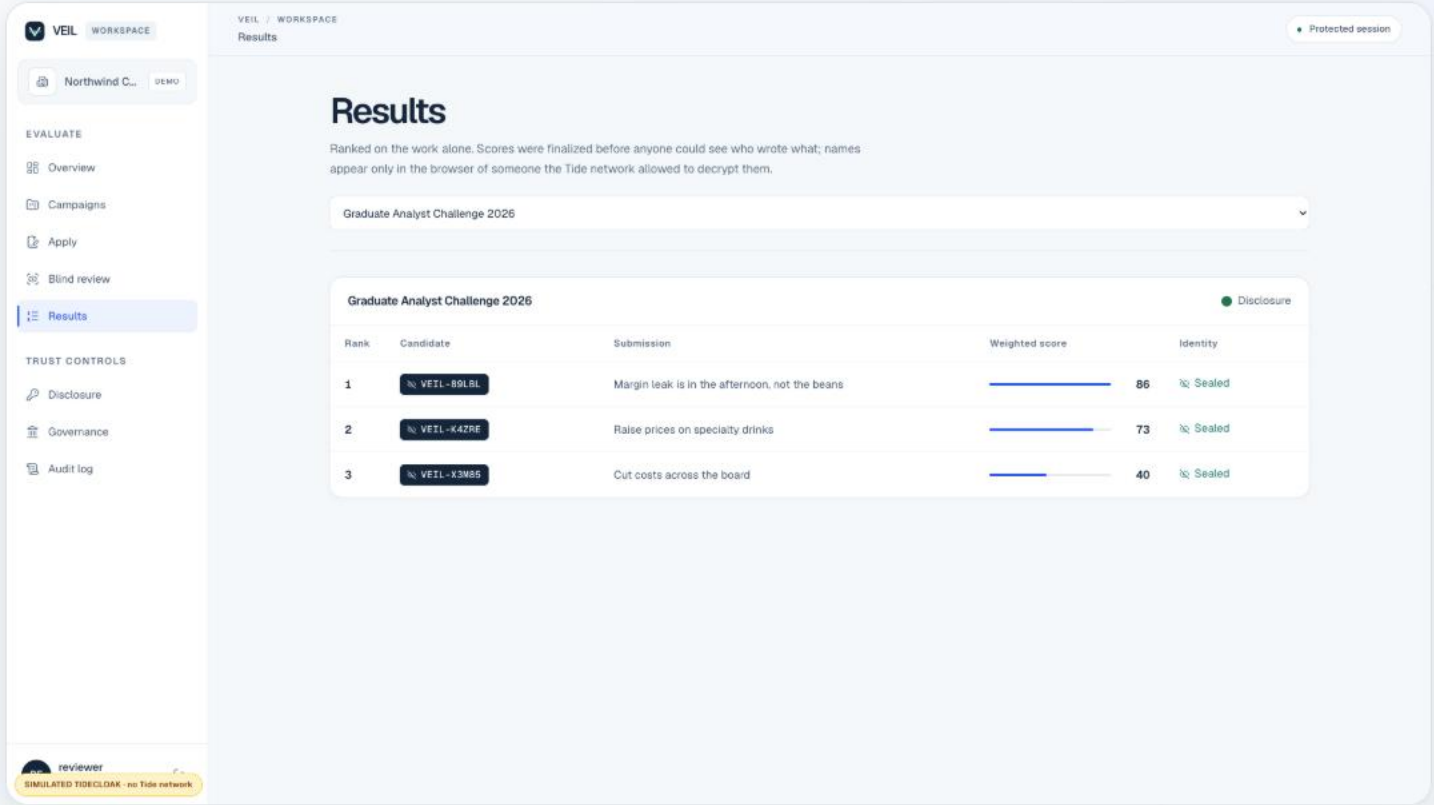

Identity remains sealed

05 / LOCK THE OUTCOME

Scores lock *before names.*

All three scores are finalized. The ranking is visible; every identity stays sealed.

86 **Rank 01 · VEIL-89LBL**
Weighted score · identity sealed

Finalized evaluations: 3 / 3 · Identity: sealed

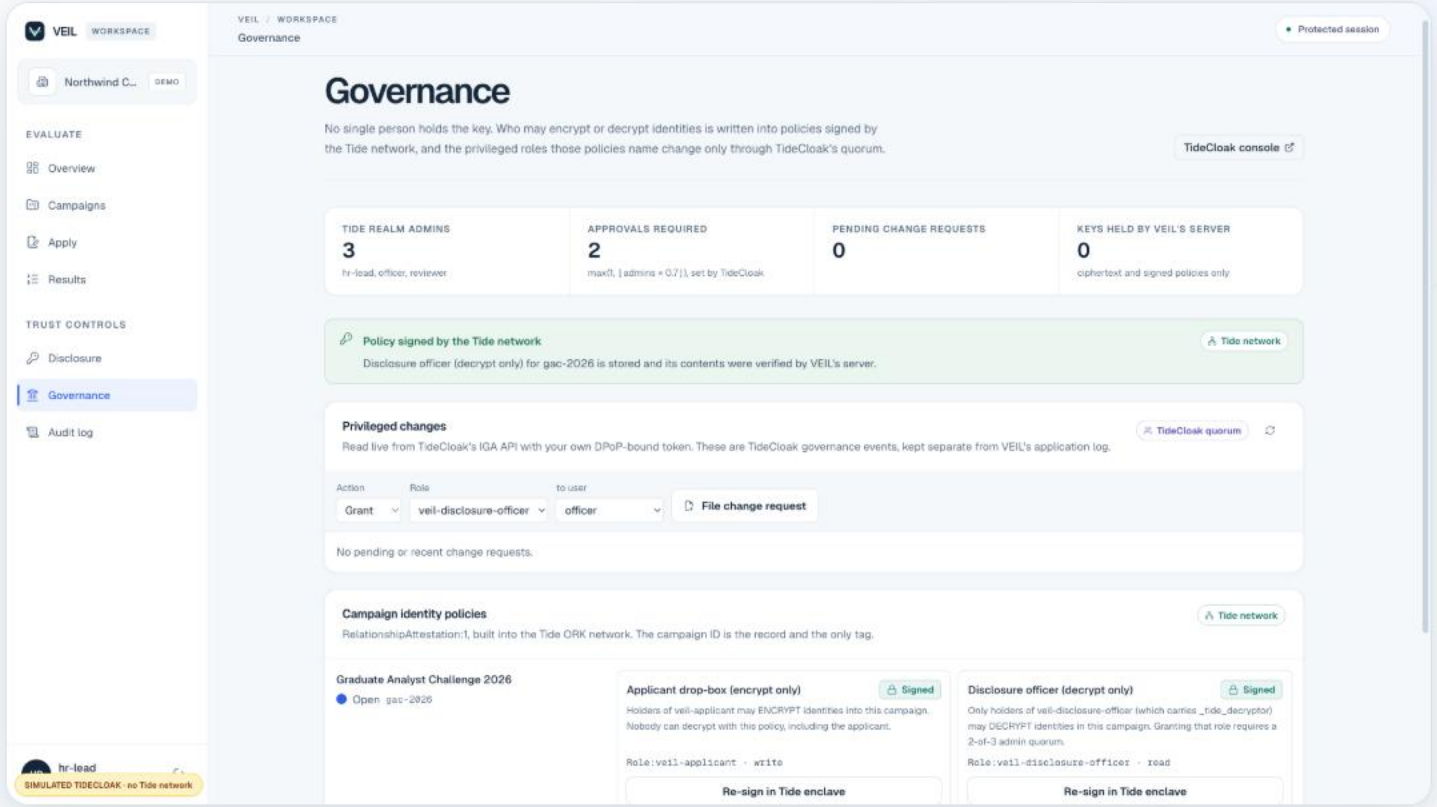

06 / GOVERN THE BOUNDARY

VEIL holds *no keys.*

Signed policies separate who can write encrypted identity from who can read it.

0 identity keys held by VEIL's server

Applicant identity	Encrypt only
Disclosure officer	Decrypt only

Campaign identity policies

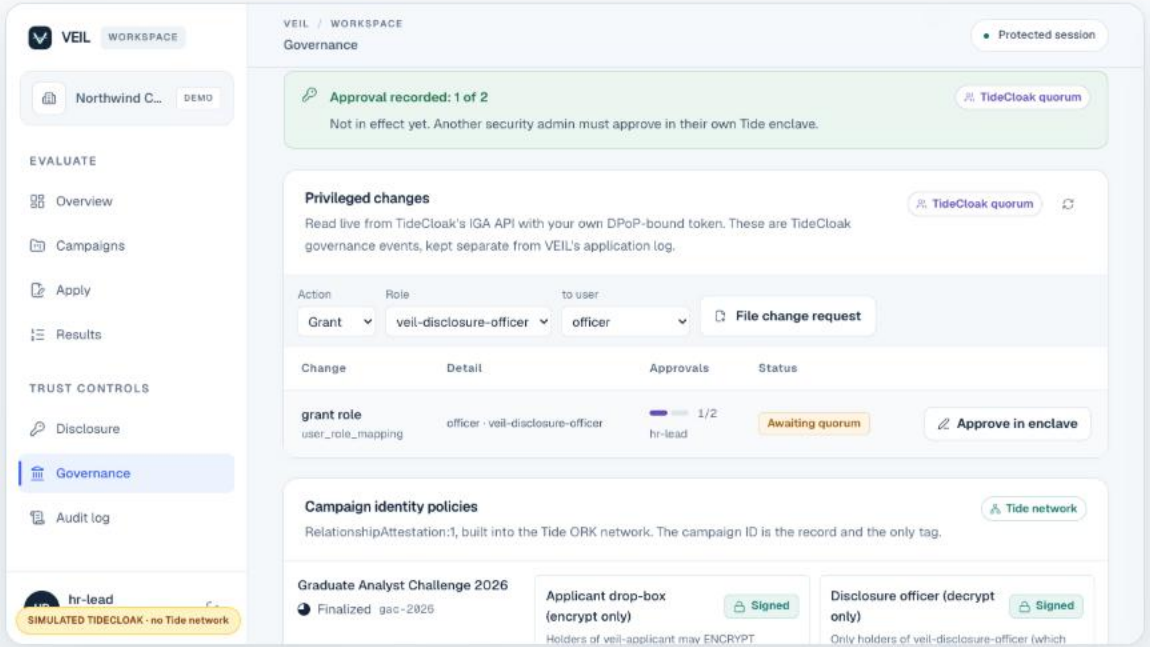

Signed · separated roles

07 / QUORUM-GOVERNED ROLES

One admin is not *enough.*

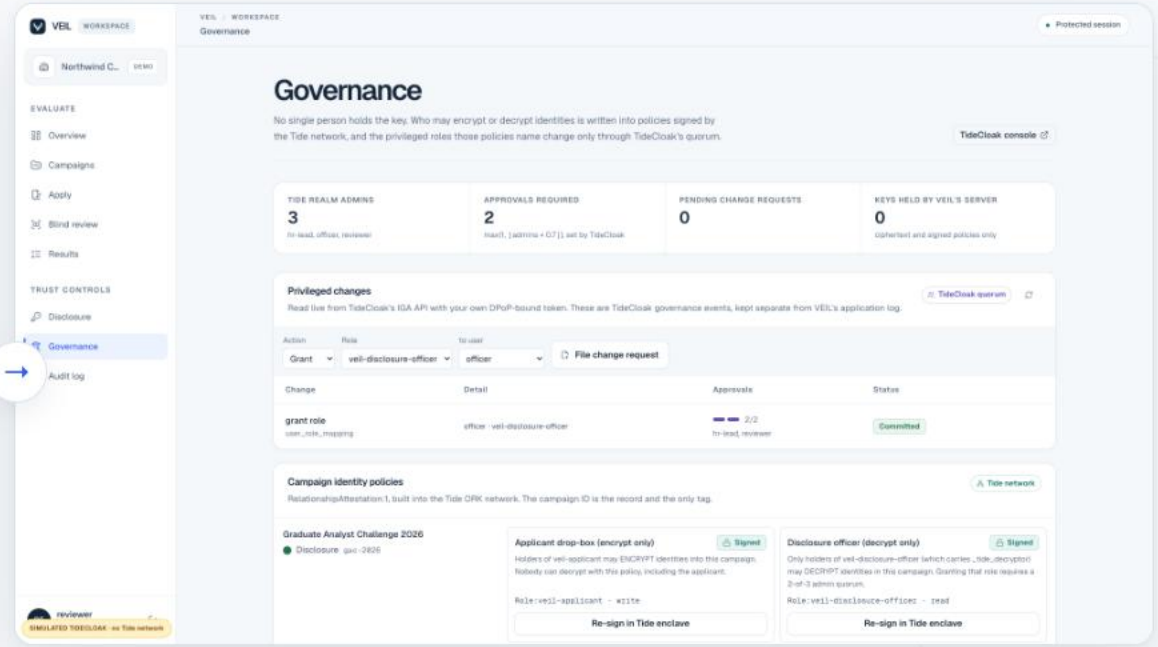

The disclosure role takes two separate enclave approvals to become active.

APPROVAL 01 — 1 / 2 · PENDING

One signer cannot grant the role alone.

APPROVAL 02 — 2 / 2 · COMMITTED

A second admin completes the simulated quorum.

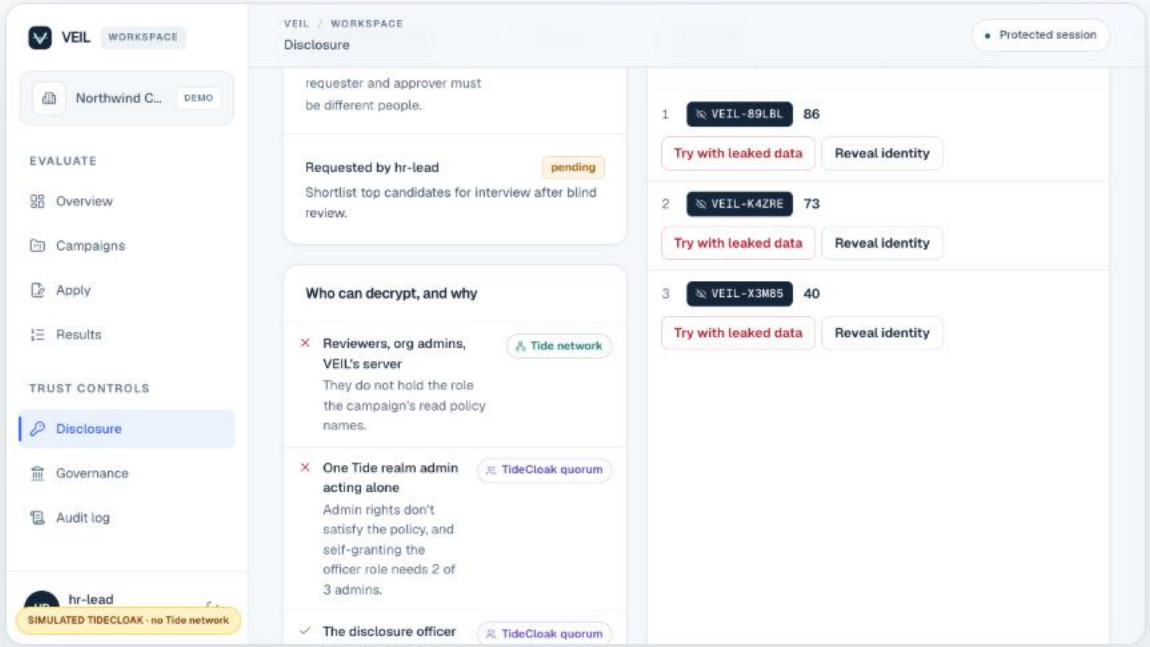

08 / GOVERNED DISCLOSURE

Request. *Approve. Reveal.*

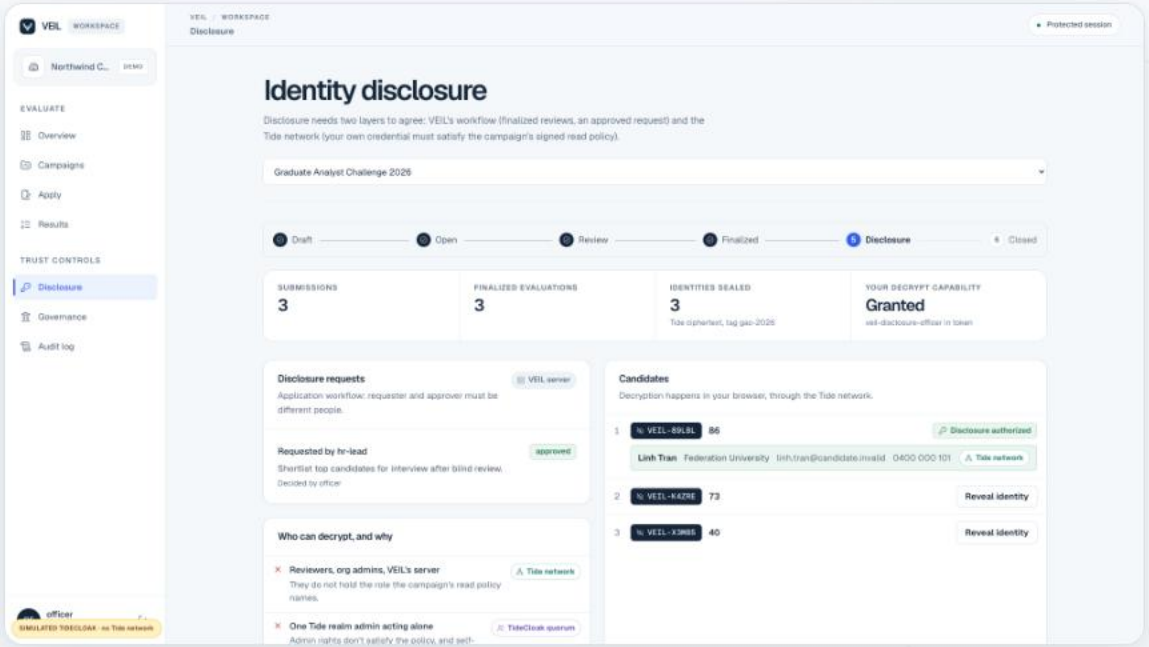

different people →

The requester and approving officer are different people. The role alone does not approve the case.

01 · HR REQUEST — PENDING OFFICER REVIEW

02 · OFFICER REVEAL — APPROVED · AUTHORIZED

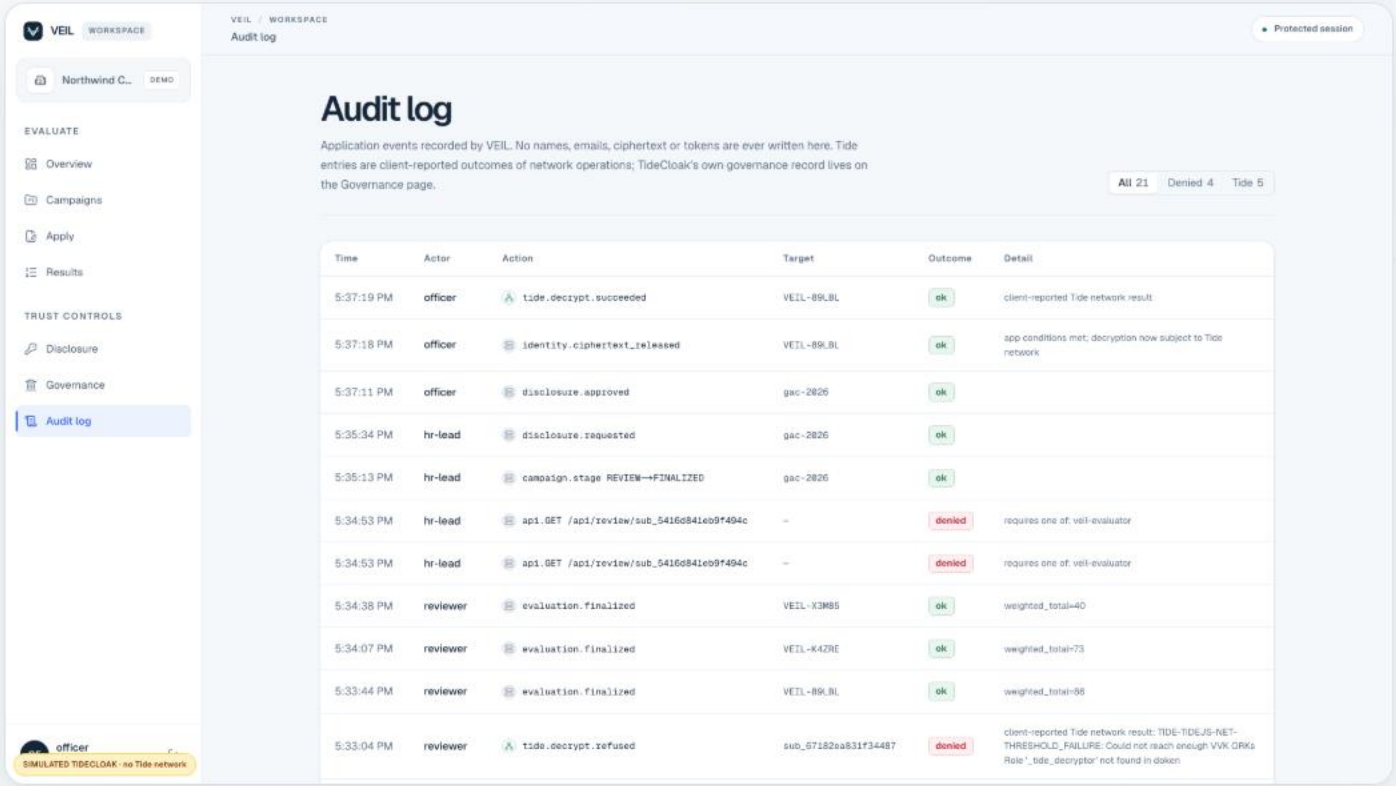

Release rule: finalized scores + approved workflow + officer credential.

09 / TRACE EVERY DECISION

An accountable trail. *Without the identity.*

Review, denial, score lock and disclosure are visible. Names, tokens and ciphertext stay out of VEIL's app log.

Judge the work. Not the person.

NO NAMES · NO TOKENS · NO CIPHERTEXT
